JUL 2

METORANDUM FUR:

Special Assistant to the Deputy Airector (Administration)

ATTENTION:

SUBJECT:

Proposed Regulation

"Personnel valuation

This Office concurs in subject proposed Regulation for the reputy Director (Plans) with the following exceptions:

- a. It is believed that paragraph 5c(1) should be deleted since in many cases the supervisor would not be available, and the reports would of necessity have to be prepared by the person next in line. It appears that this person could as well assist the new supervisor in preparing the reports on an annual basis and eliminate the special report. Further, this would be a considerable work load on the supervisor being released or reassigned, since it would be necessary that reports be prepared on all individuals under his supervision at one time rather than on a staggered basis when prepared annually.
- It is recommended that this proposed Regulation, and particularly paragraphs 5c(2) and 5d(1), be referred to the Inspector General for concurrence, since it appears that these hich calls for a two paragraphs rescind CIA Notice narrative evaluation in lieu of a Personnel Evaluation Report upon an employee's reassignment to another major unit of organization.
